Does this issue involve debris removal or vegetative overgrowth <i>(i.e. trees, grass, weeds)</i> ?	Yes	No	I don't know
Does this issue involve sediment removal from swales or ditches?	Yes	No	I don't know

By signing below, I understand that The City is authorized by North Carolina General Statute G.S. 40A-11 to enter my property thirty (30) days after written notice is given however, I am waiving this requirement and granting permission for the City of Fayetteville (or its agents) to enter my property for the purpose of conducting a site investigation, including CCTV inspections of infrastructure, for the drainage issue described within this application. In the event the City equipment needs to be recovered or damage occurs as a result of the investigation I understand that excavation may be required and that the City will restore any damaged area caused by the investigative effort. By signing below I understand the aforementioned could take place. I understand that the City of Fayetteville is only responsible for stormwater infrastructure within its rights-of-way. However, there are circumstances where Stormwater Enterprise Funds, as approved by City Council, may be used for drainage assistance on private property through the Drainage Assistance Program.
