Subject: Re: [EXTERNAL]Redistricting draft plan documents

Thank you for the maps!

1- The maps are too small for me. They are difficult to distinguish the locations with no street names. I prefer not to guess on streets, locations/boundaries.

2- In District 4 I have 4 street names on my map and the others I'm guessing the names and locations, even though I know the district pretty good.

3- It's difficult to tell if neighborhood's are still split between districts with no street names without guessing.

4- Where the boundary lines are drawn its difficult to tell what side of the road neighborhood's are located in.

Thank you,
DJ Haire
District 4
