Mrs Megill,

I know the consultants for redistricting are gathering information from you that is given by council.

I would like to give my concerns and history with District 1 and redistricting.

I have been very involved with the Fort Bragg community the past 8 years. District 1 has a strong presence of military personal.

Fort Bragg reached out to me about 6 years ago and we put the Veterans work program together for the city of Fayetteville and surrounding areas. Being a military brat and spouse for many years I have traveled the world and have lived the many different places.

I am a member of various groups at Fort Bragg.

District 1 consist of a large percentage of active duty and retired personal. I am asking that consideration is taken when redistricting that Fort Bragg stay part of District 1. It has a way of getting lost. I have worked very hard to open that relationship and keep Fort Bragg involved with our city. I understand how the base and city can work together when it is to the betterment to both communities. I feel have made great progress. We are in collaboration that many people thought was impossible but I dug in.

Again, thank you for your time. Fort Bragg is very valuable to our city and surrounding communities. I hope to able to keep representing the base and moving us forward together.

Kathy Keefe Jensen
DISTRICT 1
