

## Redistricting - Council Member Requests for Accepting Option "A" with Changes

---

District 1 – Mayor Pro Tem Jensen

I am good with "A". I am willing to take more of Fort Bragg if needed for District 8

---

District 2 – Council Member Ingram – No Requests

---

District 3 – Council Member Waddell – No Requests

---

District 4 – Council Member Haire

Once again I'm asking that my present neighborhood of Seabrook Hills / Broadell Homes (Holly Springs & Chestnut Hills) be put back in District 4. The natural boundary streets are: Langdon Street to Topeka Street. The entire neighborhood sits in between these two streets pretty much and this area helps increase population for District 4.

Once again I'm asking that District 4 Not Cross Morganton Road. Presently Morganton Road crosses Reilly Road into the Lagrange Community to the right . I agree with the Consultant, but not to cross over Morganton Road.

I did speak to the Council Member that represents that side of Morganton Road.

---

District 5 – Council Member Dawkins

Email correspondence between me and CL Kinston, CM Wright, and CM Davis, about Wright/Davis request, and my request to add Skye drive, Windwood, Dundee, Ellerslie, Hybart from D9 to D5.

---

District 6 – Council Member Davis

This will be going from District 6 to District 5 (see illustration on the map)

Per the agreement between CM Dawkins and myself.

D6 will be giving him the portion of D6 which runs from Lower Bingham to Hope Mills Rd.

I submitted a map with the graphic at the special meeting. We also vetted the proposal via the consultant.

D5 gets approximately 270 from D6.

---

District 7 – Council Member Wright – No Requests

---

District 8 – Council Member Banks-McLaughlin – No Requests

---

District 9 – Council Member Kinston

Per the conversation at the Special meeting on October 13, 2021 instructions. District 9 is not requesting any additional changes to Map A from District 9.
